

COATINGS TECHNOLOGIST/TECHNICIAN

Advanced Polymerics is an innovative company working in the field of Smart Coatings & Functional Materials. We are looking for an experienced coatings formulator for our Salem, New Hampshire Headquarters, who can work independently and achieve results in a fast-moving environment.

JOB REQUIREMENTS

- BS in Chemistry or Materials Science
- 3-5 years of industrial chemistry experience in formulating waterborne or solvent-based paints in industrial or architectural coatings
- Experience in formulating and testing of coatings
- Knowledge of lab practices in a paint formulation context
- Experience with coating application techniques and equipment. Knowledge of plural component spray equipment would be a bonus.
- Project management skills
- Excellent communication, computer and interpersonal skills
- Must be effective and responsible and be able to work independently
- Occasional travel and overnight assignments
- **US CITIZEN/PERMANENT RESIDENT only**

In return we offer

- Salary commensurate with qualifications & experience.
- Paid vacation and paid holidays.
- Company sponsored Medical & Dental plan
- 401k Plan Participation after 90 days
- Industry recognized training
- A clean, safe and professional work environment.
